Titan<sup>™</sup> 1000 Wall Mount Reverse Osmosis System

## **Titan™ 1000 W-Series** Reverse Osmosis System

- Fully Equipped and Customizable
- Higher Recovery Rates
- Lower Energy Consumption
- High Flow Low-Energy Membranes
- Lower Maintenance
- Wall Hanging Space Saving Design
- Individually Wet Tested and Sanitized
- 1-Year Limited Warranty
- Made in the U.S.A.

**Titan W-Series Reverse Osmosis Systems** feature an excellent pretreatment design, high quality components and offer high performance. **Titan** systems are designed for higher recovery rates and minimum energy consumption.

Experience greater savings with lower maintenance and operation costs when you install a **Titan Reverse Osmosis System**.

Titan 1000 200069

The Ultra Water
Treatment Solution.

## Titan™ 1000 Wall Mount Reverse Osmosis System

## **Standard Features:**

- Membrane: One 4" x 21" TFC HF1 Membrane For maximum rejection of impurities and high flow.
- Membrane Housing: One 4" x 21" Champ™ Membrane Housing Features a patented design and requires no tools when servicing.
- Pump: One 1001 Fluid-O-Tech<sup>®</sup> 5.3 GPM NSF Approved Brass Rotary Vane Pump — Directly couples to the motor and is designed for continuous high pressures.
- Motor: One 3/4 HP Motor 110 or 220 Volt 50 or 60 Hertz CSA and RU (UL recognized).
- Frame: One Aluminum White Powder Coated Frame Corrosion resistant and light weight.
- **Sediment Filter:** One 2.5" x 20" Slim Line 5 Micron Polypropylene Filter Removes sediments and protects the system.
- Filter Housing: One 2.5" x 20" Slim Line Double O-Ring Filter Housing Offers durability and improved sealing capabilities.
- Pressure Gauge: One PuroTech™ 2.5" 0-300 PSI Panel Mount Glycerin Filled Gauge – For monitoring the system's operating pressure and the filter, operating pressure.
- Low Pressure Switch: One Square D<sup>®</sup> Low Pressure Switch Safety device to protect the pump from running dry when there is insufficient feed water pressure.
- High Pressure Switch: One Square D<sup>®</sup> High Pressure Switch —
   Automatically starts when the tank pressure falls below 40 psi and stops
   when the pressure reaches 60 psi.
- Solenoid Valve: One Solenoid Valve with Manual Override 110 or 220 Volt 50 or 60 Hertz UL Approved Assists with the on/off functionality of the system.
- Concentrate Valve: One 1/4" Brass Needle Valve Regulates the product to waste ratio (system's recovery).
- Concentrate Recirculate: One 1/4" Brass Needle Valve This feature
  offers a higher recovery rate for the system by taking a % of the waste
  water and feeding it back into the system.
- Flow Meters: One Product (0-2 GPM) & One Waste (0-5 GPM)
   PuroTech™ Flow Meters Enables operator to accurately adjust product to waste ratio and monitor systems performance.
- Switch: One Manual On and Off Switch.
- Easy Maintenance & Operation: Titan™ reverse osmosis systems feature a compact design and have all of their components strategically located for easy access and inspection.
